# | Considerations |

# Guiding Principles

## Access

Must preserve no-cost program and aimed to serve a third of all 4-year-olds with these programs

## Family Choice

Families deserve a choice for the kind of support that will help their children develop appropriately

## Community-Driven

Much like family choice, communities' needs must drive the types of services and programs they need.

# Considerations for 10 years

## Workforce

We need to build a qualified workforce that is well-supported and better valued.

## Facilities

A master plan and partnership with facilities agency will allow for prudent planning.

## 3-year-olds

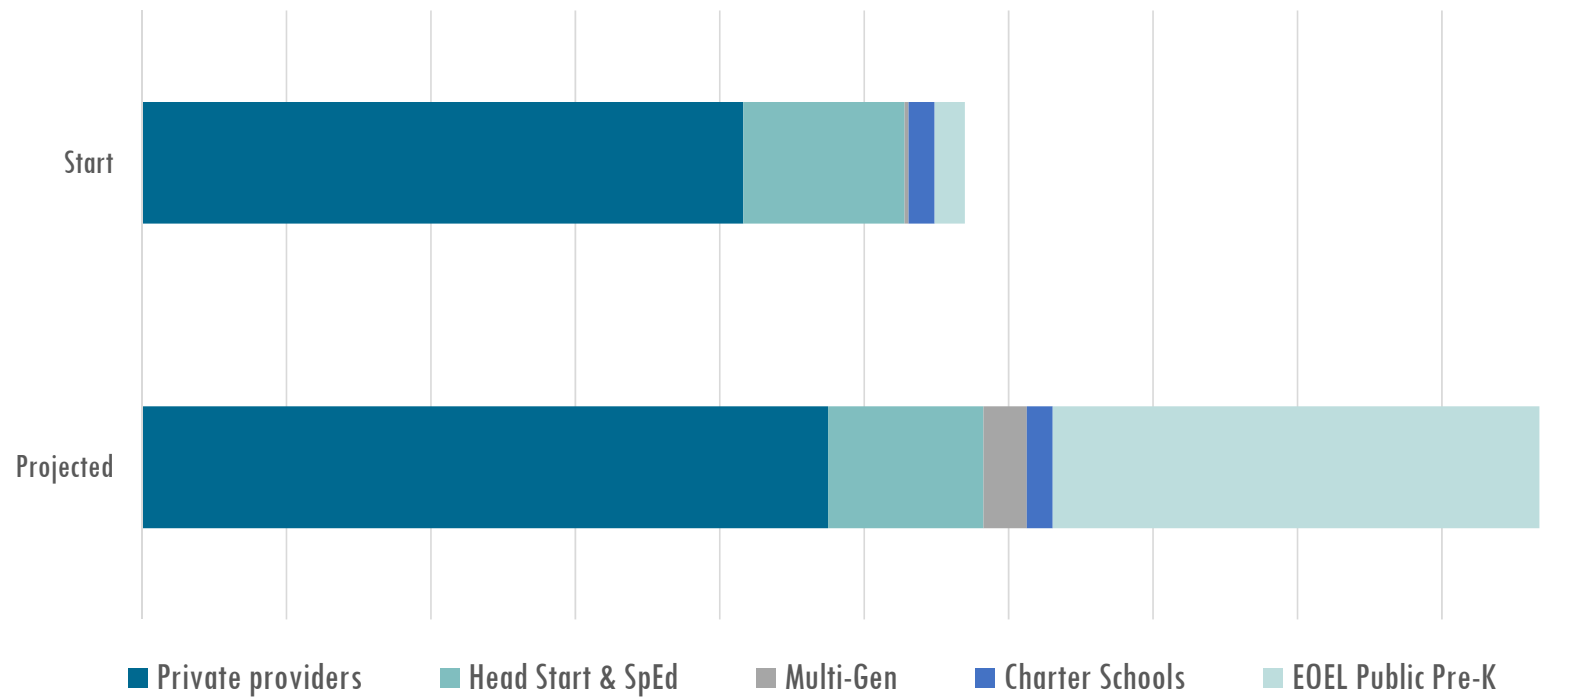

We anticipate most 3s will be served in private settings with increased access to tuition support.

## Private Sector

A successful model requires partnerships with private providers on workforce, quality and capacity.
