

RECRUITING FOR HAWAII HEAD START & EARLY HEAD START PROGRAMS for SY 2020-2021

Hawaii Head Start (HS) and Early Head Start (EHS) are federally-funded programs that provide critical family strengthening/family engagement and comprehensive child development services for children prenatal to age five across the state. HS serves children ages 3-5 years; EHS serves pregnant women and infants and toddlers. Services promote the healthy growth, development and wellbeing of keiki through classroom and home-based options. Families, as key partners in developing school readiness goals for their keiki, are encouraged to actively participate in all program activities -- to support their keiki's joy for learning, as well school readiness skills to be successful learners. ***HS/EHS services are provided at no or low-cost for eligible families.***

If you are interested in enrolling your child into HS or EHS, please contact service providers in your area for an application and more information.
